## SUMMARY OF ST. LOUIS MARKETS.

the local market yesterday. In wheat there was no occasion for bullish sentiment. The movement to primary receiving points was out of all proportion to the buying demand. Local receipts were extremely heavy and outside orders were scarce. Local professionals were on the selling side from start to finish. Weather conditions were generally bearish. This was especially so in the Northwest, where the temperature and the state of the atmosphere were most favorable for the approaching harvest. Foreign markets were only fairly steady and there was a light export demand.

Corn declined, partly in line with wheat and partly because of denials of Monday's "hot-wind" reports. Rains fell in several sections of the Western belt and generally cooler temperature was the rule. The cash demand was extremely light.

Sept. wheat opened unchanged and closed 146%c off.

Sept. corn opened 16c off and closed 16c off. Sept. onts closed unchanged

Receipts of produce were moderate and prices were generally steady for the average run of fruits and vegetables.

Local securities were dull. The best demand was for United Railways preferred. Yesterday's bank clearings were \$7,649,625, balances \$1,085,715. Discount rates were

## GRAINS CLOSE WEAK, WITH LIGHTER DEMAND.

RECEIPTS OF WHEAT AGAIN HEAVY.

Corn Supply Comparatively Small, but Weather News Is Bearish.

In a rather dull market wheat and corn again declined yesterday. Receipts were extremsly heavy and there was little outside buying demand. Selling of Sept. was a feature throughout the session. Weather conditions were generally favorable, especially in the Northwest. There was a good early demand for cash wheat, but bids were so eagerly met that prices eased off toward

Bradstreet's report the available supply of wheat east of the Rockies for the past week at 1,748,000 bu increase, but stocks in and afloat for Europe decreased 3,309,600 bu., making the world's visible sup-ply decrease 2 152 000 bu. Sept. wheat opened unchanged and sold at:

The market opened steady with prices unchanged, 4 points lower, this being an indifferent response to weak Liverpool cables and to light foreign selling. American selling orders and a bearish interpretation of yesterday's bureau report was given as the factors which most disturbed the foreign bulls and invited bear pressure. The chief support of the local market was active. Wall street buying of Oct. Dec. and Jan. and the demand from spot cotton houses for Aug. Trading was active in a spasmodic way, during the session, though fluctuations were at no time broad. Before midday the Wall street orders had railled the market toru shade above the closing of yesterday. Then came the weekly crop weather report from Washington and proved to be more favorable than anticipated by the trade as a whole. Prices settled back several points, but at the decline Wall street became a large buyer of the distant months. Near the close the market fell a trifle under profit-taking by interests and was finally steady, with prices net 1 point higher to 3 points lower. Total seles were estimated at 155,000 bales.

grading was very poor, and there were rains in the Western States and in the Ohio Valley. Sept. started 15c up to 15c down at 70c to 695c, and sold at 70%c. Soon, however, the perfect weather Northwest began to have a decidedly bearish effect on the crowd. Receipts here and Southwest were large, and at primary points totaled much above last year. This started free selling, and Sept. dropped to the low level for the crop—82. Bradstreet's reported a decrease of 2.152.000 bu. In the world's visible supply, and the senboard cleared equivalent to 756,000 bu. In wheat and flour. These factors had a checking influence on the decline, but the close was weak and heavy. Sept. 160%c down at 699691c. The seaboard did a fair business. The volume of trade here was not large, and was mostly of a professional character. Local receipts were 546 cars, 8 of contract grade: Minneapolis and Duluth reported 173 cars, making a total for the three points of 71% area anguer 188 best cars, 8 of contract grade; Minneapons and Duluth reported 173 cars, making a total for the three points of 719 cars, against 788 last week, and 690 a year ago. Primary receipts were 1.256,000 bu., against 391,000 bu. last year. The senboard reported 39 loads taken for export.

Corn.

Corn receipts here to-day were 69 cars, and estimates for to-morrow but 25 cars. For a moment prices in this pit edged above the closing figures of yesterday, but bullish statistics could not overcome the decidedly bearish sentiment of the crowd. Heavy selling of Sept. shortly after the opening caused the slump. Offerings came out abundantly, and there was no let-up to the pressure until Sept. had dropped from 57½c to 55½c. The big interests identified with the free selling of the last several days were in the pit selling. In the assence of anything that resembled support no one wanted the corn. Stop-loss orders came out and helped in the decline. Liverpool was strong, and as much as ½c higher, but exerted no influence. At the bottom there was some buying by commission houses and by shorts who covered. This brought a slight rally, but Sept. closed very weak, 1½-21½c down at 55½c. The weather West, while rainy, was considered favorable to the growth of corn. Onts.

Chicago, Aug. 5 .- Grains were heavy today and prices declined sharply. Sept. wheat, depressed by almost perfect harvesting weather in the spring-wheat country and by very heavy receipts, dropped to the lowest price so far this season. Corn also ruled very weak on heavy seiling, notwithstanding receipts were falling off greatly. At the close of trade Sept, wheat had lost %3%c, Sept., corn 1%31%c, and Sept. oats 43%c. Oats held up well against the depression of the other grains. There was a dip early and again late, influenced by liberal receipts and the corn break, but the weather was against the oats harvest, and reduced estimates of arrivals checked any sympathetic declines of moment. The cash demand also was fair. Sept. sold from 32140 are to 3140, and closed easy, 10% down at 315032c. Receipts were 316 cars.

Provisions were quiet, but somewhat irregular. Hogs at the yards were weaker for poor grades and higher for the best. Early liquidation depressed products, but good Milwaukee support brought a brace in the market, and everything advanced. Sept. pork closed 12½c up at \$16.85, Sept. lard 2½c higher at \$10.85, and Sept. ribs 7½c up at \$10.47½.
